

Conservation Reflection Control® Acrylic

Minimal glare. Maximum beauty.

Conservation Reflection Control® Acrylic is the conservation-grade, non-glare acrylic solution. Built with optimal, conservation-grade UV-filtering technology, this acrylic product provides 99% UV protection that helps to prevent artwork from fading while allowing for stunning, crystal clear color transmission. This acrylic product has a matte-like finish that scatters light to reduce optical distortions and unwanted glare.

Applications

- Framing or displaying fine art collections, oversized works and irreplaceable works of art
- Use to reduce glare in rooms with high volume of uncontrolled light
- Use to frame items that don't require a lot of depth - a maximum of 2 matboards stacked is recommended
- Framing for earthquake prone or high traffic areas where safety is a concern

Available Sizes

SIZE	# OF LITES PER BOX
32 x 40 inches	3
