

# SUPER-SIZE YOUR OPTIUM MUSEUM ACRYLIC®

Reprinted with permission from SmallCorp

SmallCorp has developed a proprietary method for bonding Tru Vue® 6mm Optium Museum Acrylic edge to edge to create sheets larger than the standard 72" x 120". They can even make them with multiple joins, providing the joins are parallel. The glued parts are just as strong as the rest of the sheet. The result is lighter than glass, and you already know how wonderful Optium Museum Acrylic looks. We think you'll agree, the results are practically seamless! Contact SmallCorp for more information.

Seamless?! Not quite, but see if you can tell.

Close up Chuck Close painting, Private collection.

Chuck Close painting from a private collection. Frame and 87" x 102" seamed Optium Museum Acrylic by **SmallCorp**. Framing by **Sterling Art Services** in San Francisco.
