Innovative Anti-Reflective Acrylic Developed Specifically for Direct Print and Face Mount Applications

Now Available!

See how TruLife® Standard Acrylic works best for your acrylic applications

TruLife Standard Acrylic – Features an anti-reflective first surface/viewing side that is manufactured with a proprietary coating to create a nearly invisible surface, that eliminates distracting reflections and annoying glare associated with other acrylics. Second surface (print/mount side) is uncoated.

Features & Benefits

Anti-Reflective – See your image, not your reflection

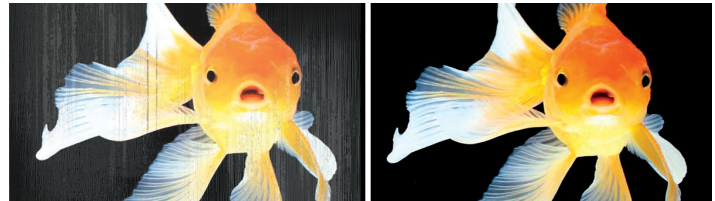

Amazing Clarity – Brighter colors and sharper details

Abrasion Resistant – Durable and scratch resistant

Anti-Static – Repels dust, requires less cleaning

99% UV Protection – Protects images from fading

Cleans Like Glass – No special acrylic cleaners needed

Scratches on Regular Acrylics

Scratch Resistant TruLife Acrylic

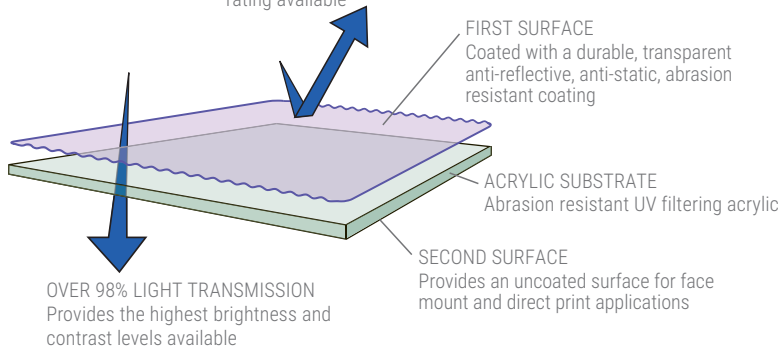

Typical Reflections with Regular Acrylics

Enhanced Appearance with TruLife Acrylic
