KEY FEATURES & SERVICE BENEFITS

- ✓ IMPROVED INVENTORY MANAGEMENT: Low minimum order quantities, better inventory management and improved speed to market.
- ✓ SHORT LEAD TIMES: Stock products can be shipped within 1 week of order.
- ✓ MULTIPLE GLASS OPTIONS: Can be fully-tempered or laminated based.
- ✓ HIGH PERFORMANCE: Offered in single sided AR coated product with amazing durability, tight cosmetic specification, and <.5% reflection.

APPLICATIONS

- Facades
- Storefronts
- Skyboxes / Stadiums
- Zoos
- Automotive Dealerships
- Entrances
- Lobbies
- Railings

SINGLE-SIDED

- 3mm single sided AR coated: 10 lites (96" x 130")
- 6mm single sided AR coated: 5 lites (96" x 130")

DOUBLE-SIDED SIZES

- 9.5mm double sided, post temperable AR coated: 5 lites (96" x 130")

TRU-AR™ SINGLE-SIDED - 3mm & 6mm

TRU-AR offers a full product line of anti-reflective glass products for architectural applications. TRU-AR offers traditional single sided anti-reflective glass for a laminate application.

TRU-AR™ DOUBLE-SIDED - 9.5mm

The TRU-AR 9.5mm double sided post temperable product, once fully tempered, delivers a safety glass without requiring lamination saving time, effort and cost. All stock products are float glass with low-iron available upon request.

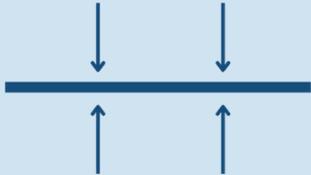

TRU-AR offers amazing clarity while virtually eliminating reflections, excellent durability and weatherability, and outstanding cosmetic appearance. TRU-AR is manufactured by Tru Vue, a division of Apogee Enterprises.

TRU-AR™

A NEW APPROACH TO ANTI-REFLECTIVE GLASS

Better Fabrication Yields... Better Margins!

Unique Advantages of our 9.5mm Double-Sided AR Glass

Double-Sided Post-Temperable

Our innovative double-sided coating helps simplify and streamline your glass projects.

Available with EZ Clean top coat and made to the durability and scratch resistant attributes your projects require.

No Need To Laminate

Take complexity out of your project with TRU-AR.

Once TRU-AR is fully tempered, it's ready to fabricate, removing complexity and saving you time and money in the process.

Short Lead Times

Conveniently stocked in Minnesota, our standard product offering is ready when you are.

With minimum order quantities as low as 5 lites, we help make it easier to manage your projects.

TRU-AR Offers Glass Solutions with Experience.

Our anti-reflective coating solutions provide ultimate reliability and flexibility to your unique projects. With 25 years of expertise, our teams understand what it takes to deliver outstanding product clarity and quality.
